INNOVATE. STOP SPILLS.

It all began with the idea to eliminate spills with a coffee mug that sealed between sips.

From there, we engineered a patented technology called Autoseal™ to deliver on that groundbreaking idea. Since 2004, Contigo® has passionately engineered innovative beverage carriers for discerning individuals and families who celebrate us because we enhance their active, flowing lifestyles through intimate understanding and design.

Our obsession for consumer-centric design down to the smallest details made us the global market leader in branded on-the-go drinkware. We are continuously looking for ways to revolutionize the world of drinkware and offer you the best products on the market.

Contigo®. Sip with confidence.
