

**KAMBUKKA®**

Kambukka designs trendy drinking solutions for people on the go. Our consumers consciously choose bottles that fit their active lifestyle and personality. In that way, they can express their thirst for more – more adventures, more fun, more action. Kambukka products are so easy in use, that after a while you just can't imagine a life without them.

Our bottles are stylish. But there's more. Kambukka enables a smooth drinking experience with its patented smart product features. Just think of a lid that suits every occasion, a design that is 100% spill-proof and bottles that are very easy to clean thanks to their Snapclean® feature. By the way, all Kambukka products are developed in-house, from the very first brainstorm to the final tests. You see, with ten years of experience under our belt, we know exactly how to meet the needs of different kinds of consumers all around the world.

## 3 IN 1 LID

### The perfect drinking experience

Slowly waking up behind your desk with your morning cup of coffee in hand is a different kind of drinking experience than hastily knocking back an espresso on your way to your next meeting. That's why our cleverly designed 3 in 1 lid with Snapclean® technology has three positions. Just push the slider to enable the ...

#### 🔒 Push position

push the button every time you want to take a sip. No more spills while driving or when walking to the train platform.

#### 🔓 Always open position

just drink from your bottle like you're drinking from a cup. Perfect for relaxed situations at the office or during a well-deserved break.

#### 🔒 Locked position

the leak-proof position for people on the go. 100% backpack-proof.

## SNAPCLEAN®

### Just pinch and pull

How to make sure not a single drop of tea, coffee or sports drink stays behind when you clean your bottle? We've got it covered. Thanks to our patent pending Snapclean® feature you just pinch and pull to remove the inner mechanism in one piece. By the way, all our lids are dishwasher safe. Easy!

## SWITCH LID

### Simplicity is king

With the switch lid, logic is queen and simplicity is king. Push the cup icon to drink and the lock icon to close the bottle again. Don't think, just drink! By the way, this lid has Snapclean® technology.

## STRAW LID

### Keep your head up

With its easy-to-use drinking spout and straw, this lid is a favourite of kids, sports addicts and drivers. Thanks to the angled straw you don't have to tilt your head – eyes on the road! – while you can still finish your drink completely.

## TWIST LID

### Cool on every level

The twist lid is the cherry on the cake of the trendy Reno bottle. Twist the top part of the lid to drink and remove the bottom part to easily clean the bottle or to add mint leaves, lemon slices or ice cubes – everything you need for a 'cool' lifestyle.

## BORA LID

### Snacking in style

The Bora lid makes sure the jar stays leak proof and has an air vent to let of steam and avoid pressure build-up.

# MIX AND MATCH!

# MATCH!

## UNIVERSAL LID

### Mix and match as you like

Do you like your drinks icy cold on those hot summer days? Just combine your thermal mug with the lid of your water bottle as you can mix and match our bottles and lids and customise your perfect drinking experience. Don't worry about your hot drinks either, by the way. All Kambukka lids are resistant to high temperatures.
