

by Roll'eat®
Reuse and Reenjoy

Contribute to make a healthier planet by promoting a wiser consumption, delivering reusable and sustainable products to wrap food for daily-use.

That is what really makes **Roll'eat** different, the reason our products exist – **to protect the planet!**

We work hand in hand with public administrations, educational organizations and private administrations to promote and encourage sustainable lifestyle, environmental education and reduction waste by committing to roll to a healthier world. Our products were born to be a sensitivity tool.

Being all our products designed in Barcelona, Spain, these are **pioneer reusable food-wrappers which are:**

Sustainable · Functional · Innovative · Original · Customizable

Customization options are endless. Plenty of different options are available for:

- **Private organizations.**

(Corporate gifts, point of sale actions, events and festivals.)

- **Public administrations.**

- **Schools.**

- **Universities.**

- **Associations**

(NGO, waste management, sports, etc.)

Make our products, your own products.

PRODUCT CATEGORIES

Boc'n'Roll

A sustainable, innovative and funny idea to dress-up your Sandwich!

Enjoy your sandwiches on-the-go thanks to our environmentally friendly sandwich wrap. It has an easy fastener that makes it adaptable to different food shapes and sizes (sandwich, fruit..). It is convenient, compact, machine washable and also serves as an individual placemat.

11x15 cm (folded) / 32x54 cm (unfolded) 100%Polyester (outer) / 100%TPU (inner)

Nickie Van de Wyngaerde - Mondial Gifts - Lebbeke (Belgium)

Mostly clients contact us because they have seen Roll'eat products on our website (with up to 90% sales potential!). These are very well known in the retail Belgium, which of course runs in our favor. Our overall experience with our relationship with Roll'eat is good. And our clients are always satisfied with the products.

Red Dot prize

It is one of the most well-known world prizes and it recognizes the quality and innovation of domestic and professional products.

Martijn - P&P Projects – Groningen (The Netherlands)

Roll'eat products are mostly used for people who are looking for eco-friendly way to pack lunch, so they also get more aware of reusable products.

The selling point we tell our customers is that the product is reusable as well as eco-friendly. Something that they have not seen before and catches their attention, which makes it a perfect way for a company to get some advertising in.
